Someone from that number did ll back, but when we answered "newschannel four" they immediately hung up. We'll keep checking on that trashy situation and let you know what we find out. Back to you. Next in weather weather center tz plus today we posed as thieves in the metro, breaking into houses and cars to see whether Oklahomans would call police or ignore a criminal in the act. Nat randy car did you see anything? Up next the results of our test that stunned both us, and police officers. And some **military** experts say it's time to let **gays** and lesbians serve openly in the armed forces. What do you think? The rant is next. "Now, tonight's rant, with kevin ogle." four retired **military officers** are telling congress that the **military's "don't ask, don't tell"** policy needs to be repealed. They say allowing **gays** and lesbians to serve openly in the **military** won't pose any significant risk to safety or morale. Do you agree the policy should be repealed oshould it stay as is? We begin with a ranter from purcell: "they serve our country the same as any other person would! God bless anyone who can and will fight for our country!" grant says: I was a U.S. Army ranger for thirteen years and served with some soldiers who were **gay** and lesbian. I didn't compete in the event that the Congress and ask them to read to you ... for the title play off circle and all that can also get into it and that warning that that is likely that the panel made a panel recommends that the policy change ... so we were not sure about when the hearing is actually going to happen just yet ... no not not nothing like that with the trophy here and to share with you know that the panel will have to do so that they didn't feel that the **military** ... good to know could undermine his unit cohesion ... sure ... and Democratic Congressman Marty Meehan of Massachusetts plans to reintroduce a bill that would repeal the policy that President Clinton approved in nineteen ninety three ... and that is a change in an attempt to allow openly **gay** service members is that correct ... yes ... 00:22:52

00:22:52 on that and that has been you know it's been successful and in that it has gotten no truth to it but that line out period with regard to begin a major change in how the **military** front the cartoon band wound to the dispute that this story and it's a lot on you ... we can't allow the **military** should be ... the attention on how to fight to change that ... I'm sad because this idea that the team's first in order for us ... I think the **military** came to the north with this nothing has nothing but the flip side though ... and while this does this it means other issues besides this coming on saying it will undermine the cohesion based on what we see overseas and then something wrong with the unintended consequences that could happen without really careful review of all that and said he also said that on **military** and teachers changing allowing **gays** and lesbians to serve openly ... he is unlikely to pose any significant risk to them around and do you agree with that ... I mean I've I have to say this that you doubt that we'll go down fifty three specific units on ... I think like anything else is that the mobile units that they that don't agree with I think there's certainly been good and it is going to put into 00:24:08

00:36:00 the ability to my scouts didn't show it ... they had any material and they had one song that actually no longer is part of the show of the things that is ready to go and let's get a shot to the conclusion from the audience to see how it plays ... and then from that point on we just started going together as rewrites ... as the group as they would show now it's my understanding all you guys are from New York with the riots that has endeared coming here to San Diego to put on the show's diversionary theater ... and is this a West Coast for me and this is the West Coast from their icy and has tipped as the plane been on stage in New York someplace ... the challenger and the North Division has been in your computer ... yet don't know yet if the baby daddy and see them sadly rebound three days to get to go in in facile production New York and we did was call the showcase production in in Brooklyn ... and now we're we're currently hoping to bring the show it off Broadway in the next year or so ... and that and so this is going to sell part of the journey of figuring out exactly what the show as they were very very close but the key things he wanted to play with a four week bidder for troops in Iraq ... well what was it like to be **gay** and in the **military** during World War two ... well and there's there's as many activities many experiences and that is their word and lesbians serving during the war but not in some ways I'm the way is the ticket because if he's here because there was less knowledge about what a good soldier look like and the reception duty for soldiers that they were out there are soldiers who passed by rather completely there's also the beginnings of real witch hunts ... suspected from essential service and didn't ... recruiters can enlist years of service men and asked them if they're homeless ankle ... yet this was that part of what's exciting about this period is is that the first time that the psychiatrist and an injunction asked whether you are homosexual ... and they're going to start is for her son to me as an act ... but this was the first time that there is a class of people call homosexuals to let this get it ... 00:37:59

I'm wondering whether a lot of heat ... the conflict comes from the fact that there are many streak ... dad have sex with other guys and they don't stand in terms of want to be labeled ... what were some of the challenges he Gore in states he is willing to release a cinematic ... and episodic although I think when you see people feel that it's in the southern town ... the challenge was how do I create a visual sense of time and place ... without it turning into a theory that the lumbering production ... one dead that the audience would never notice the scene change and yet it would be very conscious of the completely typical ... 00:55:59

[CC] 00:05:45 Now, the secretary of state's office announced in October of 2007 that opponents felt just short of gathering enough signatures, required to place that issue on the ballot. Now, the ring could have a major impact on the 2,200 same sex couples who have already registered for domestic partnerships in Oregon since the law took effect on February 1. The couples get more equality on hospital visits, medical decisions, and parent and other legal and financial issues, but do not get the same benefit, such as social security payments and joint tax returns that are granted to, to married couples. Now, the lawsuit was filed by, by 33 voters against the secretary of state bill Bradbury and the election officials in 10 other Oregon counties. Live in news control, Chad Carter, "Good Day Oregon." [CC] 00:02:40 We are getting word one of these cars was packed with teenagers. The victims were rushed to the hospital and one did die at the hospital, another is listed in critical condition. Two others are listed in serious condition. The F.A.A. Is saying radar data shows two planes were never in danger of colliding that people were talking about yesterday cricketing reports by air traffic controllers saying two planes came within 100 feet of each other on Saturday and had to maneuver to avoid an accident. The F.A. Is saying this was a non-event, nothing happened but when you have actual radar and our collision avoidance system went off in the tower, the collision avoidance system doesn't go off unless there's a conflict. The controllers say Kennedy is among a number of airports that uses this perpendicular philosophy and shows why it should be stopped. Some retired **military officers** want congress to repeal the don't ask-don't tell policy. They prove the presence of **gays** is unlikely to undermine the ability to fight and win and **gays** coming out of the closet are unlikely to pose any risk in morale. Absolute tragedy, Katherine, explain what happened. It is so sad, Karen. Right over here there's this big pile of debris and on top you can see there's wood and also some window screen but underneath this pile of debris there's furniture from the apartment and a child's bicycle. There are neighborhoods here who knew this 5-year-old boy and sadly this morning they believe he's the one who started the fire because he was upset. The child, Jay Moirls was apparently not allowed to go to the park with his friends as punishment for making prank calls to 911 and he was angry at his grandmother and it's believed he was playing with matches and used matches to set fire to curtains in his grandmother's room when his grandmother realized 00:05:00

Mike tibbles who led palin's transition team elected after she was governor in November 2006 and served as her chief of staff for nearly a year and a half, resigned abruptly this spring. Tibbles, who lives in Juneau, ran john binkley's campaign in the republican primary for governor in 2006. In a statement, tibbles' stevens praised organizational skills as a tested campaign manager. Today's campaign dueling between barack obama and jo mccain focused on how to fix the economy. In Denver, obama accused mccain of offering what he claims would be a third term of president bush's policies. The central component of senator mccain's economic plan is \$300 billion more in x cuts f big corporations and multimillionaires less than a quarter of which will benefit the 80% of American families that make up the bulk of America's middle-class. Let me repeat that. Less than a quarter of his tax cuts will go to the middle class "if you believe you should pay more taxes, I am the wrong candidate for you. [CC] 00:35:37 Now if you want to know where you can find the best gas prices around town, juslog on to kfox TV dot com and click on the gas tracker tab. Another way a growing number of people are saving money on gas, is by taking the bus. But if you haven't ridden the bus before, it can be intimidating, figuring out where to catch the bus, or, even which s you take to get to where you're going. But by riding the bus, you can save a lot of gas money. For example, one woman tells kfox, by catching the bus to work, just three mornings a week, she saves about half a tank of gas. "I fill up with 40 dollars. That's almost 20 dollars and it only takes me a dollar and a dime to get to my location." but there are pitfalls to riding the bus. I'll tell you about them as we follow one person, who agreed to ride the bus for a week, in tomorrow night's installment of "giving up gas". A study by retired **military officers** suggests congress should repeal the <don't ask, don't tell> Policy for **gays** in the **military**.
